## INTRODUCTION.

This handbook gives a selection of the principal statistics available for each municipality, shire and non-municipal town in New South Wales. Municipalities and shires are areas incorporated under the Local Government Act, but a "non-municipal town" is a town of 1,000 or more inhabitants at the Census of 30th June, 1954 situated within the boundaries of a shire outside the Metropolitan Area. On page 52 there is an alphabetical list of non-municipal towns showing the shire in which the non-municipal town is located. Statistics for the Sydney Metropolitan Area, Newcastle Urban Area, and each Statistical Division of the State are also shown.

The individual areas are arranged alphabetically in four groups, viz.:-

- (a) SYDNEY METROPOLITAN AREA, comprising 28 municipalities, portion of one municipality, 2 shires, and portion of 3 shires, together with an aggregate of these areas;
- (b) COUNTRY TOWNS, comprising 74 municipalities, portion of one municipality, Newcastle Urban Area, and 79 non-municipal towns.
- (c) COUNTRY SHIRES, comprising 128 shires, portion of 3 shires, and the Unincorporated Area in the Western Division of the State; and
- (d) STATISTICAL DIVISIONS, comprising 14 Statistical Divisions and a total for New South Wales.

An index of municipalities, shires, and non-municipal towns in each statistical division is given on pages 53 and 54 of this handbook.

A more detailed description of the fifty-three statistical items, and a list of abbreviations used, are shown on the following four pages.

# DESCRIPTION OF STATISTICAL ITEMS.

Where necessary, a more detailed description of each statistical item is set out hereunder:-

<u>Item</u> <u>No.</u>	
1.	This figure is the <u>estimated</u> population as calculated by the Government Statistician. Intercensal estimates of the total population of local government areas are made annually as at 30th June, but no intercensal estimates are made of the population of non-municipal towns.
2.	Final figures for the Census of 30th June, 1954.
3.	Percentage increase (or decrease) between the Censuses of 30th June, 1947 and 1954. The populations of non-municipal towns were not enumerated at the Census of 1947.
4.	This item comprises the following particulars:- (a) Metropolitan Area: Number of persons per acre at 30th June, 1955. (b) Country Towns - Municipalities: Number of persons per acre at 30th June, 1955. (c) Country Towns - Non-municipal Towns: Number of persons per acre at 30th June, 1954. (d) Country Shires and Statistical Divisions: Number of persons per square mile at 30th June, 1955.
7 to 13	Proportion per cent. of the population in age-groups, as at Census of 1954. The ages relate to age last birthday, e.g., "0 to 4 years" relates to children who had not attained their fifth birthday at 30th June, 1954.
14 and 15	These items include persons married but permanently separated, but exclude persons widowed or divorced.
16.	Persons who were shown at Census of 1954 as being born outside Australia, New Zealand, the United Kingdom and the Republic of Ireland.
17.	Persons born outside Australia who had resided in Australia for less than seven years at Census of June, 1954.
18 to 20	"Work Force" comprises (a) all persons at work and (b) all persons who normally would be working but were temporarily not at work on 30th June, 1954. Group (a) includes employers, self-employed, employees on wage or salary and helpers not on wage or salary; group (b) includes persons unable to secure employment, temporarily laid off from their jobs, and those not actively seeking work at the time of the Census on account of sickness or accident, industrial dispute, resting between jobs, or for any other reason. Although the work force in New South Wales includes 813 persons (533 males and 280 females) under 15 years of age, they represent only 0.06 per cent. of the total work force, and do not affect the percentages shown.
21 to 26.	See abbreviation "x" on page 7.
21.	This item has not been shown in respect of the Metropolitan Area, where it would be negligible in most instances. Poultry farming is included.
21A.	This item has not been shown in respect of the Metropolitan Area, where it would be nil or negligible.
22.	All manufacturing industries. Electricity and gas are excluded.
23.	Includes shipping, road, rail and air transport.

Item  
No.

24. Commerce includes wholesale trade and retail trade.
27. Total occupied private dwellings, as collected at the Census of 1954, comprise the types listed in Item Nos. 28 to 32. They exclude dwellings other than private, such as licensed hotels, boarding houses, educational and religious institutions, and hospitals. For the purpose of the Census, a "dwelling" is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building.
- 28 and 29. Includes houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received.
30. Portion of a shared private house which is occupied separately and for which portion a Householder's Schedule was received.
31. Part of a house or other building which can be completely closed off, and which includes both cooking and bathing facilities.
32. An apartment, room(s), etc., which is part of a building, but is not a self-contained unit.
- 33 to 36. Proportionate distribution of the houses (including sheds, huts, garages, etc.) listed in Item Nos. 28 and 29.
33. "Brick" includes stone and concrete.
34. Weatherboard or mainly of wood.
35. Fibro-cement sheets.
36. "Other" includes iron, calico, canvas and hessian.
- 37 to 39. "Houses" (private) constitute the total of Item Nos. 28 and 29, i.e., they include sheds, huts, garages, etc.
37. Total inmates divided by number of occupied private houses (including sheds, huts, garages, etc.).
38. Total number of rooms divided by number of occupied private houses (including sheds, huts, garages, etc.). Kitchens and permanently enclosed sleep-outs are included as rooms, but bathrooms, pantries, laundries or storehouses are excluded, unless generally used for sleeping.
39. Proportion of occupied private houses (including sheds, huts, garages, etc.) occupied by the owner or the purchaser by instalments.
40. Average weekly rental (unfurnished) of private houses (including sheds, huts, garages, etc.) occupied by tenants other than "Tenants (Government Housing)".
- 41 to 43. These items have not been shown in respect of the Metropolitan Area, where details of flats have been substituted (See Item Nos. 41A to 43A below). Statistics of mining, which relate to the calendar year 1954, have been classified to local government areas, etc., according to the location of the mine. The statistics exclude:-  
(a) All small mines where employment is less than 4 persons; and  
(b) Claypits, sand and gravel quarries, etc.
- 41A to 43A. These items are shown only in respect of the Metropolitan Area.
- 41A. Total inmates divided by number of occupied private flats (Item No. 31 above).

Item  
No.

- 42A. Total number of rooms divided by number of occupied private flats (Item No. 31 above). For definition of a room, see Item No. 38 above.
- 43A. Average weekly rental (unfurnished) of private flats occupied by tenants other than "Tenants (Government Housing)".
- 44 to 46. Statistics derived from annual factory returns for year ended 30th June, 1955, in respect of establishments in which 4 or more persons are employed, or power is used.
45. Average weekly number of persons engaged during period of operation, including working proprietors.
46. Excluding drawings by working proprietors.
- 47 to 49. Building for private and government ownership completed in the calendar year, 1955.
47. Number of new houses (excluding dwellings for temporary occupation during construction of a permanent home on the same site).
48. Number of new flat units, approved conversions of dwellings to flats (additional dwellings), and dwellings attached to shops or other new commercial or industrial buildings.
49. Value of building, other than houses, flats and conversions to flats, completed in 1955. Includes business premises, factories, schools, hospitals, post-offices, etc. Alterations and additions are included where the estimated cost on completion exceeds £5,000.
- 50 to 52. Derived from the Census of Retail Establishments conducted by the Commonwealth Statistician. The last two censuses were collected in 1948-49 and 1952-53.
50. Number of retail establishments with total sales of £500 or more in 1952-53.
51. Total value of retail sales by establishments defined in Item No. 50.
52. Percentage increase in value of retail sales in 1952-53 compared with 1948-49. The retail trade census of 1948-49 related to establishments with total retail sales of £50 or more, and the Census of 1952-53 related only to those with sales of £500 or more. In the Census of 1948-49, retail sales of building materials (except timber) were included, but sales of all building materials were excluded in 1952-53. The net result is that the figures shown in respect of Item No. 52 are slightly understated.
53. Statistical divisions of the State as used in statistical publications. The names of the divisions are shown in full on page 7. This item is not shown in respect of local government areas in the Metropolitan Area, all of which are situated within the boundaries of the statistical division of Cumberland.
